Leslie Kay Drury lost her brother who was a light in her family's life and a huge part of her children Cassidy and Zachary's life. He so wanted to attend one of her events. He loved the photos and the stories from events. He passed after an extended battle with cancer hospitalized during COVID and the family was unable to visit him during his illness. Immediate family was fortunately allowed to say good bye during his final hours. The support of our family and friends continues to be a critical part of their recovery.
